BOOK A CONSULTATION

Contact the 3M BIC design team
on 01484 505601 or
info@3mbic.com to arrange a
product design consultation.

PRODUCT DESIGN OFFER

Our expert industrial design team refines your new product ideas, from sketches of your innovation or improvements to existing products. The design process blends your customer insight with advice on modern materials and manufacturing feasibility.

We work with you to develop a 2D image of your new product design using professional product realisation tools.

£3000 + VAT

PROTOTYPE DEVELOPMENT

Where you need a CAD file for manufacturing, our more in-depth package of design support includes a working prototype* printed on one of our polymer 3D printers.

To reduce cost of materials, we can use novel design techniques to 'light-weight' your product.

£5000 + VAT (includes product design)
